Youth Ideas at Work

<https://www.linkedin.com/com...>

## Publications

### Zero To Job

Book

<https://a.co/d/gDAInDn>

This book is a guide for high school students who want to start in development but are confused about which branch of CS to choose.

## Languages

### English

### Hindi

## Profiles

[aryan6673](#)

[aryanbrite](#)

I am a boy from India with millions of dreams, driven by curiosity and creativity. Exploring the endless possibilities of science, technology, and innovation

## Experience

### Dropshipping

April 2024 - June 2024

Side hustle

Delhi

<http://perlzy.wed2c.com>

Started as a side hustle after my 10th-grade board exams. It was fun, but I failed. I learned a lot of things, like reaching out to influencers and marketing.

### Open Source

June 2024 - Present

Developer

Online

<https://github.com/aryan6673>

I made some open-source projects, like a donation page for open-source developers, a numerology calculator, and many more open-source projects. One of the open-source projects, called DeyWeaver, is an AI talk planning app with 3k+ users and 250 stars on GitHub.

### Hackclub

August 2024

Member

Online

<https://hackclub.com>

Participated in some YSWS, mostly stared at the system and tried to understand how it operates.

### Hackclub

December 2025 - Present

Lead Organizer

New Delhi

<http://campfire.hackclub.com/delhi>

Lead organizer and POC at Campfire Delhi. I maintained the overall organizing team management, sponsorship outreach, website maintenance, and gave guidance to volunteers and organizations, but mostly I took guidance from them.

### Deyweaver Foundation

March 2025 - Present

Founder

Los Angeles (online)

<https://npo.deyweaver.live>

Formed a nonprofit organization called DeyWeaver Foundation, which aims to provide free, open-source, ethical AI for everyone, because everyone deserves to use costly AI, even if cloud bills hate us.

## Education

### Kendriya Vidyalaya

April 2023 - March 2024

9.2 CGPA

10th Grade

### Kendriya Vidyalaya

April 2025 - March 2026

STEAM

Grade 12th

<https://chhawalacampbsf.kvs.ac.in>

That year, instead of just studying, I **built** real SaaS apps with my CS teacher to simplify school work using AI. We **made** a Bill-to-Excel converter for finances (<https://kvs.deyweaver.live>), an AI-powered student analysis platform (<https://aiedu-zeta.vercel.app>), and other tools like a PDF compressor—**which saved** my teacher 30 hours per month. I often **skipped** regular classes to work in the CS lab, **pitching** solutions for the next day.

## Volunteering

### Youth Ideas at Work

Project Manager

<https://www.linkedin.com/company/youth-ideas-at-work/>

Collaborated on global STEAM and challenges focusing on areas like AI, Cybersecurity and Mental Health. 387 PVSA-certified volunteering hours.
